

AI SPARC

THE OHIO STATE UNIVERSITY

DRAKE INSTITUTE FOR
TEACHING AND LEARNING

AI SPARC

Self reflect on your teaching and yourself as an educator. What is important to you as an instructor and the designer of the course? What is your teaching philosophy, who are your learners and what is the context.

Prompt using a framework like TRACI.

- T- Task you want AI to do
- R- Role AI should take on
- A- Audience it is written to
- C- Create, response format
- I- Intent of the response: Include academic and pedagogical considerations

What **academic requirements** such as accreditation standards or discipline-based education research should inform the response to your prompt.

What **research on pedagogy** like Bloom's Taxonomy, Universal Design for learning, or Finks Significant Learning, should inform the response to your prompt.

Critique the response to determine if it is suitable for you and your course.
